

Back to School 2022

Information current as at 23 January 2022

Developed in partnership with NSW Health

Acknowledgement of Country

I acknowledge that I am hosting this presentation from the lands to the east the Guringai people and to the west the Dharug people. I acknowledge the Ongoing Custodians of the various lands on which you are all calling in from today and the Aboriginal and Torres Strait Islander people joining this presentation and throughout our school community.

What we'll cover in this session

COVID-safe settings
for Term 1 2022

- Before term 1 begins
- COVID-smart measures for our school
 - Testing
 - What to do when COVID-19 positive?
 - Vaccinations
 - Ventilation
 - Masks
 - Visitors and activities
 - Minimising the spread

What you need to know about our return to school in 2022

Our COVID-smart measures have been developed with NSW Health to minimise transmission and keep schools open in 2022.

We're taking every precaution to safeguard our learners and school communities, building on our experiences of the last 2 years.

Back to School is an exciting time, particularly for students starting school for the first time. A layered approach which prioritises safety will help keep schools open, where we know the best learning happens.

Our guidance is evidence-based and will provide additional levels of protection in a way that works for schools.

Key measures will include – Rapid antigen testing, mask wearing by staff, fully vaccinated adults only on site, student cohorting, staggered break times and pick-ups at the end of the school day, enhanced cleaning of high touch surfaces, social distancing, and promoting good hygiene practices at all times.

**COVID-safe settings
for Term 1 2022**

What you need to know about our return to school in 2022

This is not a normal start to the year – however, we know that being together in the classroom is the most effective way for students to learn and grow.

Your child's relationship with their teacher is important, but as we manage any potential disruptions to staffing due to COVID-19, they may get to meet more teachers than normal.

First day back all student Yrs 1 – 6 will line up in their 2021 classes. Students will be provided information about where and when they will transition into their new classes.

With the anticipated increase in staff absences due to COVID-19, where ever possible the school will use casual or support teachers to cover classes.

The infographic is set against a light blue background. In the top right corner is the NSW Government logo, which consists of a red stylized flower above the text 'NSW GOVERNMENT'. In the center is a white circle containing three blue line-art icons: a vaccine bottle labeled 'COVID-19 VACCINE', a person's ID card, and a face mask. Below the circle, the text 'COVID-safe settings for Term 1 2022' is written in a bold, dark blue font.

Before Term 1 begins

- Rapid antigen tests (RATs) will be provided to all staff and students through our school. *These will be available for collection on Monday 31 January 2022*
- Surveillance testing will provide an important additional layer of protection for our students and staff. Use of RAT kits is highly recommended but not mandatory.
- Conduct your child's RATs at home on the morning of school, twice a week on school days and before term starts.
- Participating students and staff are strongly encouraged to confirm a **negative rapid antigen test before attending school** at the start of Term 1.
- If your child is a household close contact, you must follow [NSW Health advice](#) to stay home and isolate.

Testing

- During the first 4 weeks of term, students and staff are encouraged to do a rapid antigen test (RAT) **twice a week on school days in the morning before attending school.**
- RATs will be supplied by schools with staggered collection times for parents and carers to avoid congestion.
- The RAT kits will include instructions for use, how to check the results and how to dispose safely.
- Parents and carers can download an instruction sheet for the rapid antigen test through the [Therapeutic Goods Administration \(TGA\) website](#).
- NSW Health also has [videos](#) on how to use RATs, including [translated materials](#).

RAT Collection timetable

Last names starting	Allocated timeslot	Last names starting	Allocated timeslot
A - B	9.00am	C	9.15am
D - F	9.30am	G - I	9.45am
J - K	10.00am	L	10.15am
M	10.30am	N - Q	10.45am
R	11.00am	S	11.15am
T - V	11.30am	W - Z	11.45am

Testing

- If your child has even mild COVID-19 symptoms, get them tested with a RAT or PCR (nose and throat swab) test.
- They must isolate until they receive a negative test result, in line with health protocols.
- If symptoms continue, they should stay at home and take another RAT in 24 hours or have a PCR test. If the second RAT or initial PCR test result is negative or another diagnosis is confirmed such as hay fever, they can return to school.
- Parents and carers must register positive RAT results from students on the [Service NSW website](#) or [Service NSW app](#) and notify the school as soon as possible.
- Report positive PCR test results from students to the school as soon as possible.

What to do when COVID-19 positive?

- Under the new close contact rules, schools are no longer included in contact tracing.
- Positive RAT results must be registered on the service.nsw.gov.au website or **Service NSW app**. Only positive RAT results will need to be reported via the Service NSW website and app.
- Students who receive a COVID-19 positive RAT or PCR test must tell their school **as soon as possible** and **isolate for 7 days**.
- Your principal will inform the school community when there is a positive case at school and advise families on public health advice, including monitoring for symptoms.
- Follow the latest Health advice for guidance on how to manage and treat COVID-19, including when to leave isolation and return to school.

Vaccinations

- All staff on school sites must be fully vaccinated, including having their booster when eligible.
- We strongly recommend all eligible students (and their families) who are 5 years and older get vaccinated.
- COVID-19 vaccination is the best protection against severe illness and also reduces the risk of spreading it to others.
- Visit the [Find a vaccine clinic](#) website to book an appointment near you.

Ventilation

- Natural ventilation is the most effective measure, so we will **maximise fresh air flow** in learning spaces through opening doors and windows. This approach is strongly supported by expert advice.
- Where natural ventilation is not sufficient, **mechanical ventilation and/or air purification** will be used.
- Air purifiers have been provided to the school as a supplementary measure to support common areas within the school.
- We'll continue to encourage using outdoor spaces wherever possible.

Masks

- All primary and secondary school staff will be required to wear surgical masks indoors.
- All staff and visitors must wear surgical masks indoors on school site.
- All students are **strongly recommended** to wear well-fitted masks indoors. Surgical masks are strongly encouraged.
- Masks are available on request if required.

Mask wearing for students

- Surgical masks are strongly encouraged in outdoor settings where you cannot physically distance.

- Your child can remove their mask when eating, exercising and playing a musical instrument.

- For more information, refer to [Masks and face coverings](#).

Fitting a mask on a younger child

Please send your child with a mask and a spare in their bag. We'll have some on site too.

The following graphic from NSW Health shows how to fit a mask properly – please have this conversation with your child.

While masks are not required in the Public Health Order for our primary students, they are strongly recommended by NSW Health. The department has taken the decision that they are required as an important layer of protection for our staff – particularly around younger students who are yet to be vaccinated.

There are some exemptions around mask wearing – such as when eating and exercising. Please review the NSW Government website for the full list of exemptions.

Fitting a mask to younger children

How to wear a mask 

How to wear a mask 

How to wear a mask 

How to wear a mask 

- 

1/4

1 Ensure the mask covers your nose and mouth and fits snugly under your chin, over the bridge of your nose and against the sides of your face
- 

2/4

2 Make sure the ear loops are firmly in place
- 

3/4

3 Fold the metal strip in the mask around your nose so it stays in place
- 

4/4

4 Try not to touch your face while wearing your mask

Visitors and activities

- Until further notice, **no visitors will be allowed on school grounds** except two parents or carers to support Kindergarten students or students starting at a new school.
- No visitors are allowed on school sites until further notice except for fully vaccinated:
 - workers or volunteers operating uniform shops and canteens
 - visitors supporting school operations and curriculum delivery
 - allied health partners for student wellbeing purposes.

Minimising the spread

- We will aim to minimise opportunities for COVID-19 to spread by reducing interaction between students.
- Students and staff experiencing even the mildest COVID-like symptoms must stay at home (even if they have a negative rapid antigen test).
- Students will be kept in their Stage groups whilst on school grounds, with staggered pick-ups, break times and designated playground.

Minimising the spread (continued)

- Whilst on school grounds students will only be mingling with students from within their Stage groups for breaks and the end of school dismissals as they did in Term 4 2021
- We will continue to use best practice hygiene processes on school site.
- Our enhanced cleaning practices will focus on 'high-touch' areas that students and staff move through regularly.
- We will continue to highlight physical distancing, maintaining 1.5 metres distance wherever possible.
- All staff and essential visitors will continue to use the school's QR code check-in.

Digital learning packages

- If face-to-face learning is not possible, our school will be supported to start home learning through digital learning packages for short periods.
- Online learning and lessons have been developed by the department and will be shared online.
- Schools will have ongoing support for learning from home activities if required, and we will let you know when we can return to face-to-face learning via Schoolzine push message

Ongoing communication

As we continue to navigate the evolving situation, I will endeavour to ensure that I provide parents with regular updates ensuring that we are all fully informed. Effective communication at this time of physical distancing is more important than ever.

Information can also be found on the school website and on the Department of Education website.

Further Information

Over the first few days / weeks further information will be coming home from school in relation to the following:-

- Parent Teacher information sessions in Week 3 (Monday 14th Feb – Thursday 17th Feb)
- Swimming Carnival
- Extra-curricula activities
- Sporting teams tryouts

Further information and questions

Where possible, we expect all of our students to be back at school for Day 1, Term 1.

Advice for families

Find updated information on the department's Advice for families page to support students who are anxious about returning to school – or get in touch with us directly.

Thank you

I would like to thank parents/carers for their ongoing support and understanding as we prepare to commence a new school year. If you have any concerns or questions, please do not hesitate to contact the school preferably via email. We are here to assist.
